About the closure

PLANET ROCK, a digital UK radio station playing classic rock music, has been put up for sale by its owner GCap Media. Planet Rock may close on 28 March 2008 if they are not able to secure a buyer. Current listening figures show Planet Rock has over 500,000 listeners, more than Radio 6. Showing the station has popular support makes it more attractive to a new buyer. Planet Rock listeners want to make sure the voice of rock fans is heard. Sign the petition to make your voice heard.

Please send completed forms to: Trevor White, Planet Rock, 30 Leicester Square, London, WC2H 7LA
